Description

Côté Est is a culinary lab that features a bar, Buvette, a summer restaurant, Cantina, and a gourmet boutique, Espace Découverte (discovery space), showcasing products from Eastern Quebec. Celebrate the bountiful harvest of the St. Lawrence with creative cuisine featuring locally sourced fish and seafood, meat, vegetables, and non-timber forest products. Côté Est is a space dedicated to fostering the discovery of the region's terroir and the land that nurtures it.

Côté Est's Espace Découverte is a tribute to Kamouraska's culinary roots, terroir, and know-how, which have made it a popular gourmet tourist destination. The culinary journey begins from the depths of the St. Lawrence River and extends to the far reaches of the forest and bountiful fields. Visitors can explore the region's culinary history through a self-guided interpretation trail on-site. Guided activities and entertainment are also available for groups. The experience can be enhanced by including a tour of the area occupied by Côté Est and the surrounding environment, such as access to the river and tidal flats, the seabirds, and seaside plants.

Inside the Espace Découverte gourmet boutique, themed display areas feature products that change with the seasons, allowing visitors to discover the work of partner producers.
