## Description

Camerises Mistouk is a family business specializing in growing and processing haskaps. With over 70,000 plants, the company is renowned for its expertise in growing the fruit and is the largest producer and processor of haskaps in Quebec. The Camrise Mitsouk team is passionate about this small fruit; all its products are processed on-site using manual methods. It also offers a range of products in its shop and provides various free or guided activities for visitors to discover and enjoy this fruit. A visit will allow you to learn more about the benefits of haskap berries and expand your knowledge. In the summer, visitors can explore and pick their own fruit from various types of haskap bushes.
