Description

Administrator Karine Daigle never thought she would swap numbers for pots! Her business, located in the magnificent setting of Île d'Orléans, preserves fruits, vegetables and herbs from the gardens and lands of her in-laws and local producers.

In addition to the tried-and-true classic recipes, Karine also adds a number of more modern products, such as spicy pickled beans and a low-carb range!

A stop at Compliments de Belle-Maman promises a world of flavours preserved by a passionate craftswoman who wants to update the way real home-made products are made
