## Description

You had to be bold, determined and perhaps a little crazy to start producing wine in Quebec in 1982. That was the mindset of Vignoble de l'Orpailleur's founders: Hervé Durand, Charles-Henri de Coussergues, Frank Furtado, and Pierre Rodrigue. These trailblazers were also behind the creation of the Brome-Missisquoi Wine Route.

One vine at a time, they built their vineyard with shovels, conviction, creativity, passion, and a love for their craft. Their wines, made from carefully selected grape varieties, faithfully express the local terroir. Far from being a hindrance, the nordicity actually adds a source of character to their products.

The Vignoble practices integrated viticulture to benefit biodiversity and soil health, reflecting its concern for the environment.

The Vignoble de l'Orpailleur is a pioneer of both Quebec viticulture and hospitality. It was one of the first vineyards to open its doors to the public to raise awareness of the merits of Quebec wines and share its knowledge and expertise.

Discover the vineyard's history in the enchanting setting of Dunham, where interpretation trails, guided tours and tastings, not to mention the terrace restaurant, will help you get to know this vineyard and its artisans better.
